

TOUGH APPLICATIONS

INDUSTRY'S ONLY TRUE EXTENDED POWER BATTERY

Then consider an Foxtron EX forklift battery.

Offering extra power for extreme applications, the Foxtron EX battery is the industry's only true extended power battery, providing up to 33% longer runtime in the same footprint as other batteries.

The Foxtron EX battery is designed to balance electrolytes and active material, with each cell containing more lead for higher power output to handle your toughest applications.

FLEXIBLE DESIGN TO FIT YOUR EXISTING EQUIPMENT

Foxtron EX batteries can help you achieve additional run time for any lift truck or AGV that may have limitations due to compartment restrictions or additional equipment added to the lift truck.

And they're an excellent fit for lift trucks with European compartment dimensions.

Furthermore, no special charger is required to recharge an Foxtron EX battery.

Simply match your existing charger to the voltage and amp hours of the battery, and you'll be ready to go.

QUALITY MADE IN THE U.S.A.
